

Md. Estiak Rahman Ayon

Date of birth: 10 Oct 2003 | Gender: Male | Nationality: Bangladeshi | Phone: (+880) 1704617747 (Home) | Email address: estiakrahmanayon@gmail.com | Website: <https://estkayon.github.io/Portfolio/> | LinkedIn: [Md. Estiak Rahman Ayon](#) | GitHub: [estkayon](#) | Address: Ansar Academy, Shafipur, 1751, Gazipur, Bangladesh (Home)

About me

Computer Science graduate from AIUB with experience in Machine Learning, MLOps, and vision-language systems. Defended a thesis on low-resource Bangla chest X-ray report generation and built end-to-end machine learning pipelines covering training, versioning, containerised deployment, and automated delivery. Three months of industry experience developing internal web applications at Walton Hi-Tech Industries. Seeking Master's study in AI, Machine Learning, or Data Science, focused on efficient models for low-resource settings.

Education & Training

Bachelor of Science in Computer Science and Engineering | American International University-Bangladesh (AIUB) | 15 Sep 2022 - 6 Aug 2026 | Dhaka, Bangladesh

Final grade: CGPA: 3.54 out of 4.00 | **Level in EQF:** 6 | **Thesis:** BanglaCXR: A Two-Stage Vision-Language Pipeline for Bangla Chest X-Ray Radiology Report Generation | **Website:** <https://www.aiub.edu/>

HIGHER SECONDARY CERTIFICATE | Shafipur Ideal Public School & College | 5 Jun 2019 - 13 Feb 2022 | Gazipur, Bangladesh

Field(s) of study: Science | **Final grade:** GPA: 5.00 out of 5.00 | **Website:** <https://www.sipc.edu.bd/>

SECONDARY SCHOOL CERTIFICATE | Shafipur Ideal Public School & College | 5 Jan 2017 - 6 May 2019 | Gazipur, Bangladesh

Field(s) of study: Science | **Final grade:** GPA: 4.89 out of 5.00 | **Website:** <https://www.sipc.edu.bd/>

Work experience

Software Engineer Intern | Walton Hi-Tech Industries PLC. | 1 Feb 2026 - 30 Apr 2026 | Gazipur, Bangladesh

- Built and maintained internal web applications for the manufacturing operations team, working on the PHP and MySQL backend interface.
- Implemented role-based access and approval workflows so each department only saw and acted on the records it was responsible for.
- Built responsive interfaces using JavaScript and Bootstrap so the applications worked on the screens already in use on the floor.
- Visited production lines to collect requirements from operators, and demonstrated new features to them after release.

Website: <https://www.waltonhil.com/>

Projects

Sentiment Analysis System with Automated MLOps Workflow | 15 Sep 2026 - 21 Sep 2026

- Built a reproducible DVC pipeline covering ingestion, preprocessing, feature engineering, training and evaluation.
- Tracked experiments and registered models with MLflow on DagsHub, versioning data to AWS S3.
- Containerised a Flask serving app with Docker and automated builds, tests and ECR pushes via GitHub Actions.

<https://github.com/estkayon/MLOps-Capstone-Project>

Vehicle Insurance Prediction - End-to-End MLOps Pipeline | 1 Sep 2026 - 14 Sep 2026

- Built a modular training pipeline from MongoDB ingestion through validation, transformation and model evaluation.
- Served the model via FastAPI, containerised with Docker, versioned in AWS S3 and ECR.

- Automated build and deployment to AWS EC2 using GitHub Actions with a self-hosted runner.

<https://github.com/estkayon/MLOps-Project---Vehicle-Insurance-Domain>

Undergraduate Thesis- BanglaCXR: Automated Chest X-Ray Report Generation in Clinical Bangla | 5 Feb 2026 - 30 Jun 2026

- Built a vision-language pipeline that generates chest X-ray reports on a single 8 GB GPU, combining a frozen RAD-DINO encoder with Phi-3.5 Mini (3.8B) fine-tuned via 4-bit QLoRA.
- Achieved 0.8882 F1 and 0.9795 recall on abnormality detection (IU X-Ray).
- Translated the findings into clinical Bangla using a distilled NLLB-200 model with a curated medical glossary, addressing the radiologist shortage and the lack of Bangla clinical NLP. Manuscript in preparation.

Inventory Management System - Barcode-Based Product Tracking | 25 Apr 2026 - 30 Apr 2026

- Built a full-stack inventory system in PHP, MySQL and Bootstrap tracking products through their full lifecycle via unique barcodes.
- Implemented a five-role access system with stage-specific permissions and automatic stock in/out updates on each scan.
- Designed a normalised nine-table schema with activity logging, supporting stock, summary and barcode-wise history reports.

<https://github.com/estkayon/Inventory-Management-System>

Restaurant Management System - Multi-Role Ordering & Delivery Platform | 1 Dec 2025 - 7 Dec 2025

- Built a full-stack ordering platform in PHP and MySQL with separate admin, customer and rider interfaces.
- Implemented authentication, menu management, cart and order placement with AJAX-driven updates.
- Added delivery tracking allowing riders to update order status and customers to follow progress in real time.

<https://github.com/estkayon/Restaurant-Management-System>

Aircraft Visualization - C++, OpenGL | 5 Aug 2024 - 15 Aug 2024

- Designed a multi-scene airport animation with aircraft movement and dynamic environments.
- Implemented camera control, weather effects and event synchronisation across scenes.

Skills

Programming Languages | Python, C++, C#, SQL, JavaScript, PHP, R

Machine Learning & Data Science | PyTorch/TensorFlow, scikit-learn, pandas, NumPy, Matplotlib | Deep learning, Computer vision, Natural Language Processing, Model Evaluation and Deployment

MLOps & Deployment | Docker, Kubernetes, CI/CD, DVC, DagsHub, MLflow, AWS

Backend Development | Node.js, Django, Laravel, ASP.NET, FastAPI, RESTful API

Frontend Development | HTML, CSS, Bootstrap, Tailwind CSS, React.js, AJAX

Databases | MySQL, MongoDB, Relational Database Design

Tools | Git/GitHub, GitLab, Linux

Language Skills

Mother tongue(s): **Bengali**

Understanding

Speaking

Writing

	Listening	Reading	Spoken production	Spoken interaction	
English	C1	C1	C1	C1	C1
Hindi	C1	A2	B2	B2	A2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

Volunteering

BD Clean | 7 Nov 2023 - 8 Nov 2023 | Gazipur

- Participated in grassroots public cleanliness and environmental drives across Gazipur to encourage responsible civic waste management.
- Collaborated with regional volunteer teams to coordinate community clean-up initiatives and promote sustainable hygiene practices.
